Ideation To Realization

Dana Minorics, LSSBB, PMP
Senior Director, CFO
Transformation

Dana is an accomplished leader with more than 20 years of experience helping organizations achieve their strategic plan; through disciplined business planning, project execution, and business process optimization. Dana has led project organizations faced with large-scale transformation: from developing a new business model in the face of NC Medicaid Transformation, to leading change to value-based payment in a large health care system, to mergers and acquisitions, to her current role driving alignment to new business models in tech at Red Hat.

Dana received her Bachelor's Degree in Computer Science from The College of New Jersey and a Master's Degree in Information Systems from Stevens Institute of Technology. She is a certified Lean Six Sigma Black Belt, Project Management Professional, and Agile Scrum Master.

Heidi Huenemann, LSSGB
Senior Manager, Process Architecture

Heidi is a proven leader with more than 20 years of progressive experience both in managing and optimizing company financial performance (Corporate FP&A), and in driving operational excellence and organizational change. Adept at bridging the gap between technical and functional, Heidi has built the foundation for process excellence at Red Hat. From developing scalable standards and frameworks, to designing inclusive business process architecture models, to building cross-functional process excellence communities, Heidi's current role shapes Red Hat's process excellence perspective, drives seamless value streams, and creates a future-ready organization through new core capabilities like process mining.

Heidi received her Bachelor's Degree in Finance & Banking from the University of Missouri – Columbia. She is a certified Lean Six Sigma Green Belt.

Ideation To Realization

NCACPA Current & Emerging Technologies Conference

December 2022

Agenda

Please use the **Chat function** to ask and upvote questions!

Learning Objectives

Using Common Language for Change

Ideation to Realization Basic Concepts

Trivia / Knowledge Check

Best Practices & Next Steps

Today's Learning Objectives

- 1** Understand the role that **common language** plays in building the case for transformation, using a real-world example
- 2** Learn the end-to-end flow from **Ideation to Realization**
- 3** Gain knowledge to **increase the probability of success** in adopting change

Storytime: Your Pizza Empire

As a business owner, it's important to understand the **what** , **how** , and **why** of your company.

Storytime: Your Pizza Empire

WHAT WE DO

Order Management

Pizza Assembly

Pizza Delivery

Store Management

HOW WE DO IT

Receive Request for Products

Enter Orders in System

Administer Billing & Payment

Address Sales Order Inquiries

Develop and Place Pizza Supplies Orders

Receive Pizza Supplies

Receive Customer Orders

Validate Customer Orders

Fulfill Customer Orders

Package Pizzas for Delivery

Manage Delivery Resources

Deliver Pizzas

Maintain Car Fleet

Service Products After Sale

Develop New Product Ideas

Manage Health & Safety

Pay Associates

Pay Taxes

Prepare Financial Statements

Report & Evaluate Customer Sat

Report & Evaluate Revenue and GPM%

It's also critical to understand your organization's **measures of success** .

What “common language” is used to manage Pizza Empire? (3 answers)

- **What** we do
- **How** we do it
- **Why** we do it / measures of success

Overall Rating

127 reviews

Dina L.
Raleigh, NC

8/15/22

Un-ordered **pineapple on my pizza**?
Whyyyyyyy?

Thankfully, they refunded me my money.

But I'm never coming back!

Fatima C.
Holly Springs, NC

9/7/22

Why on earth would anyone want **pineapple on pizza**? I didn't order this!

Do better, Pizza Empire.

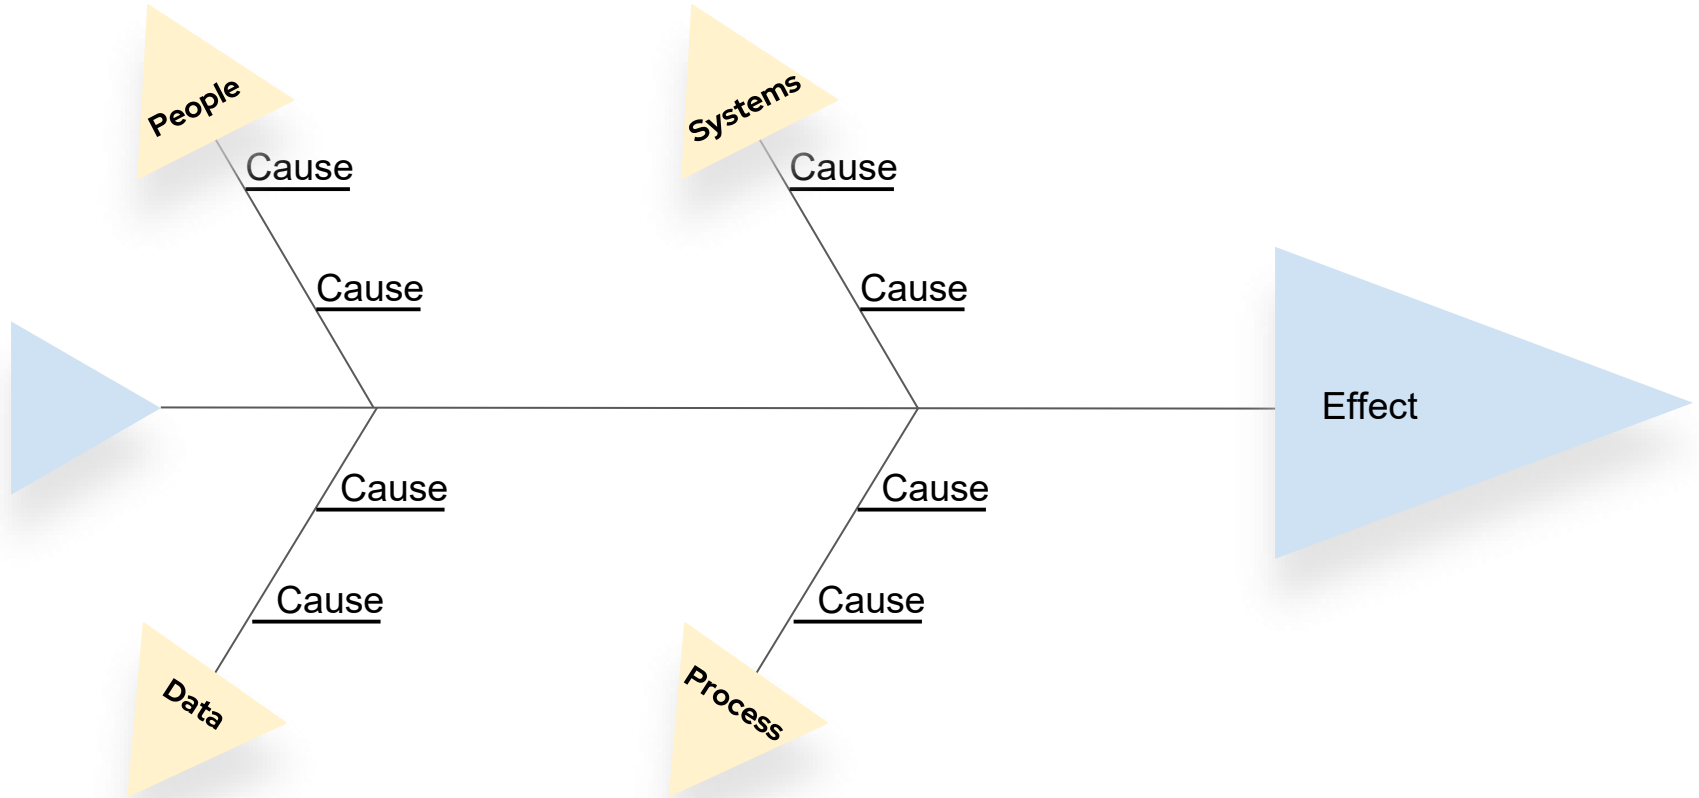

Miguel S.
Apex, NC

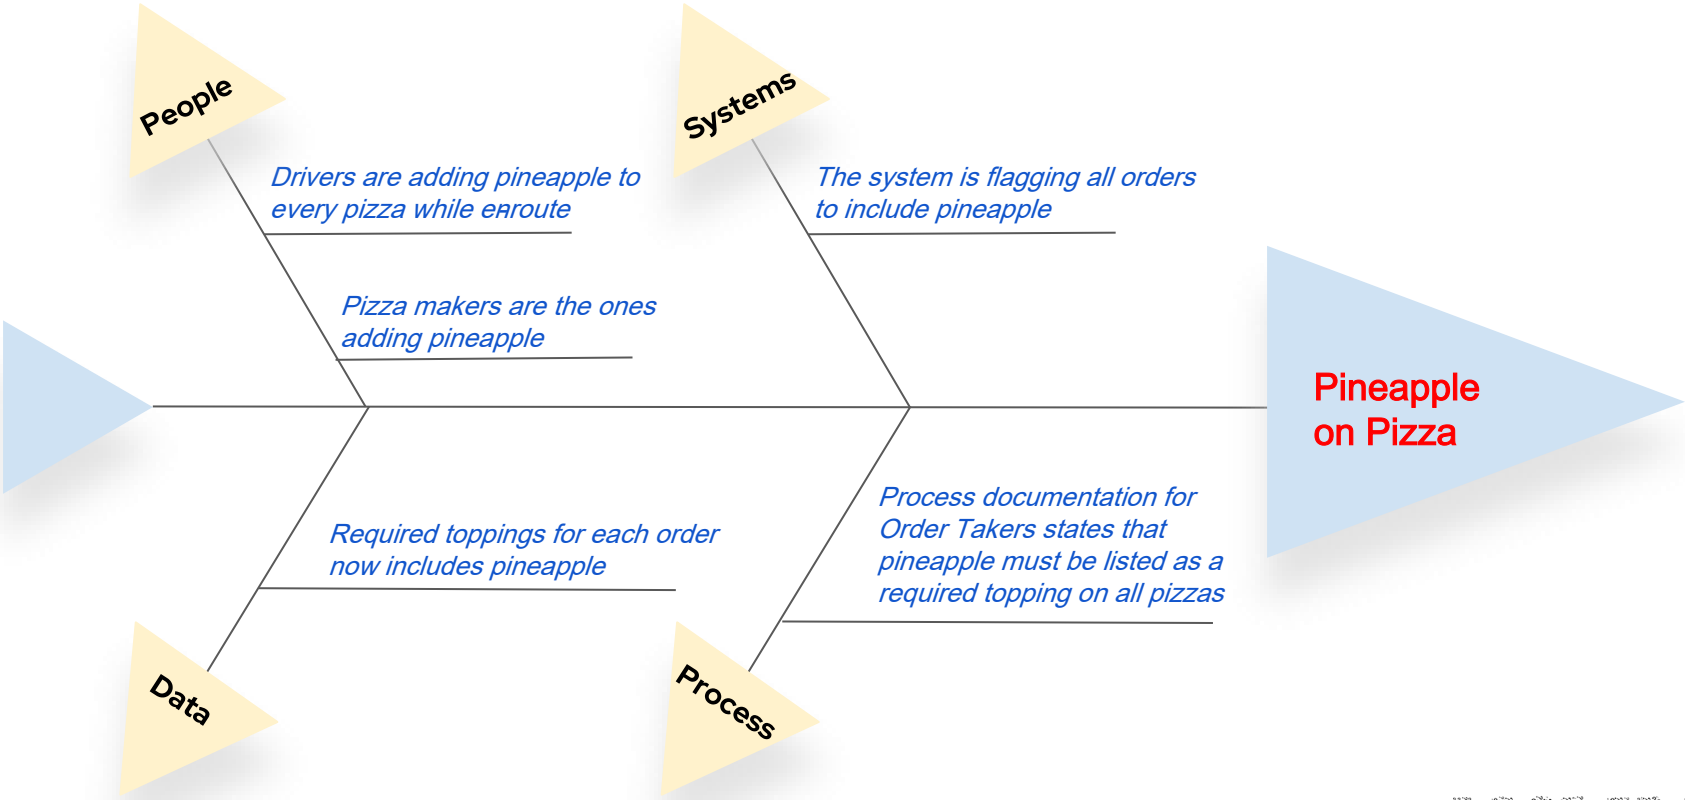

9/28/22

Free **pineapple on pizza**? How did you know that's what I actually wanted?
AMAZING. #thatpineapplelyfe

Root Cause Analysis: Hypothesize Factors Contributing to Pineapple on Pizza

Determining Root Cause: A New Order Entry System

The system was built this way!

Big Pineapple Ordering Systems, LTD.

Order Entry Details

Ingredients

<input type="radio"/> Pepperoni	<input type="radio"/> Black Olives
<input type="radio"/> Sausage	<input type="radio"/> Onions
<input type="radio"/> Bacon	<input type="radio"/>
<input type="radio"/> Chicken	<input type="radio"/> Mushrooms

Always Include Pineapple **YES**

Sauce None Regular Extra

 Cheese None Regular Extra

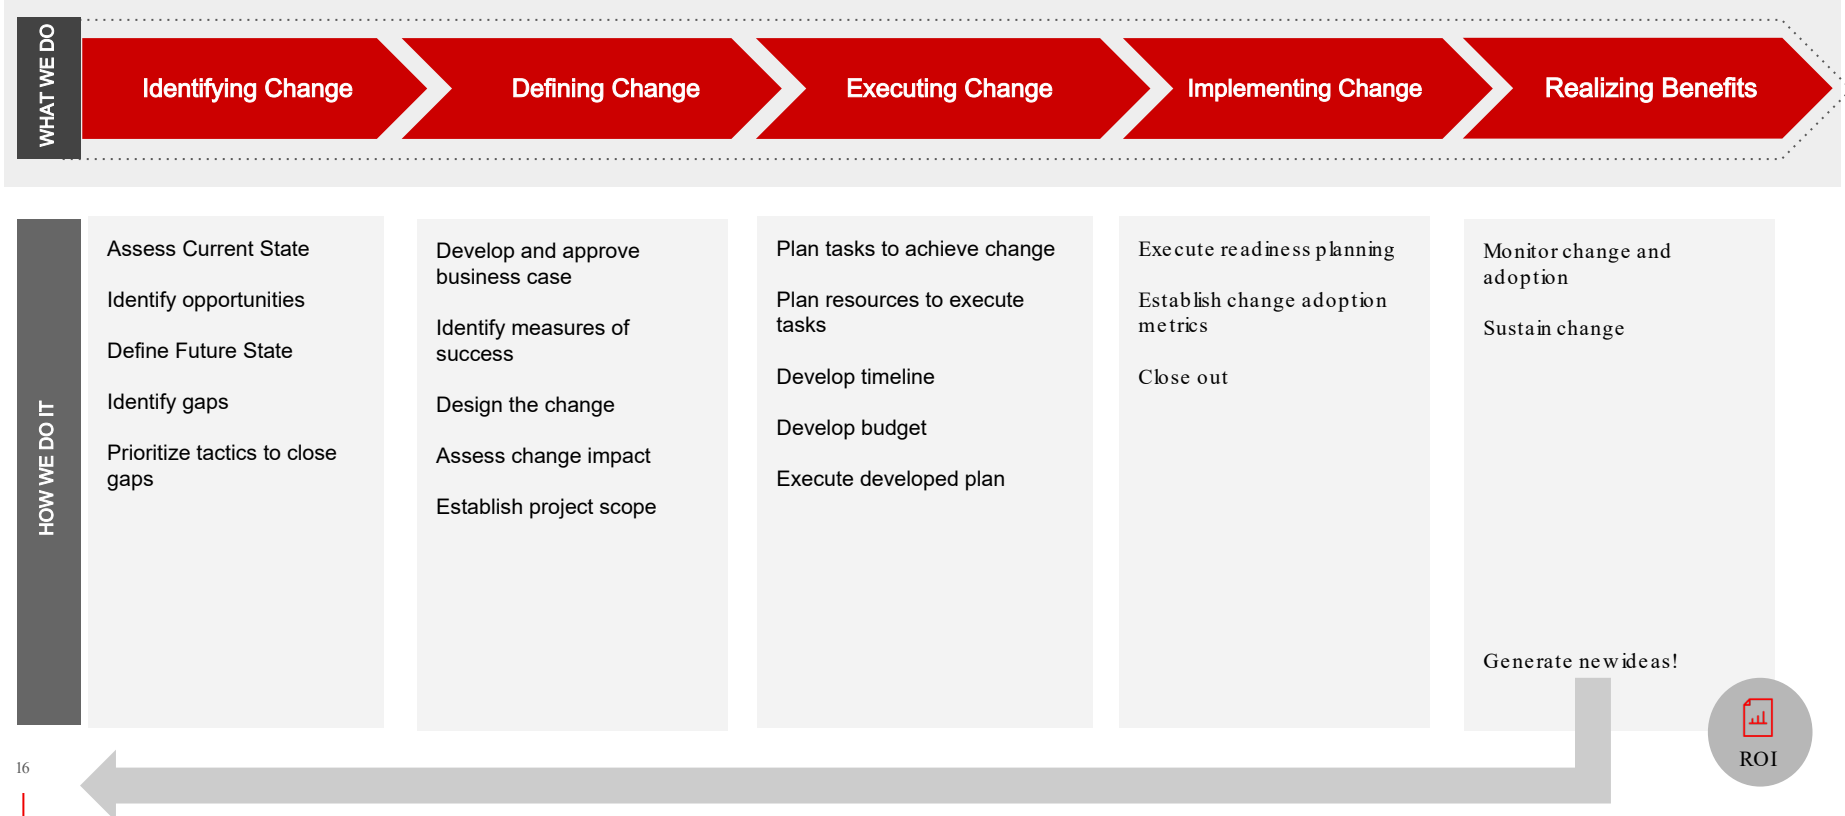

Now What? Building the Case for Change

Let's initiate a project to improve our outcomes.

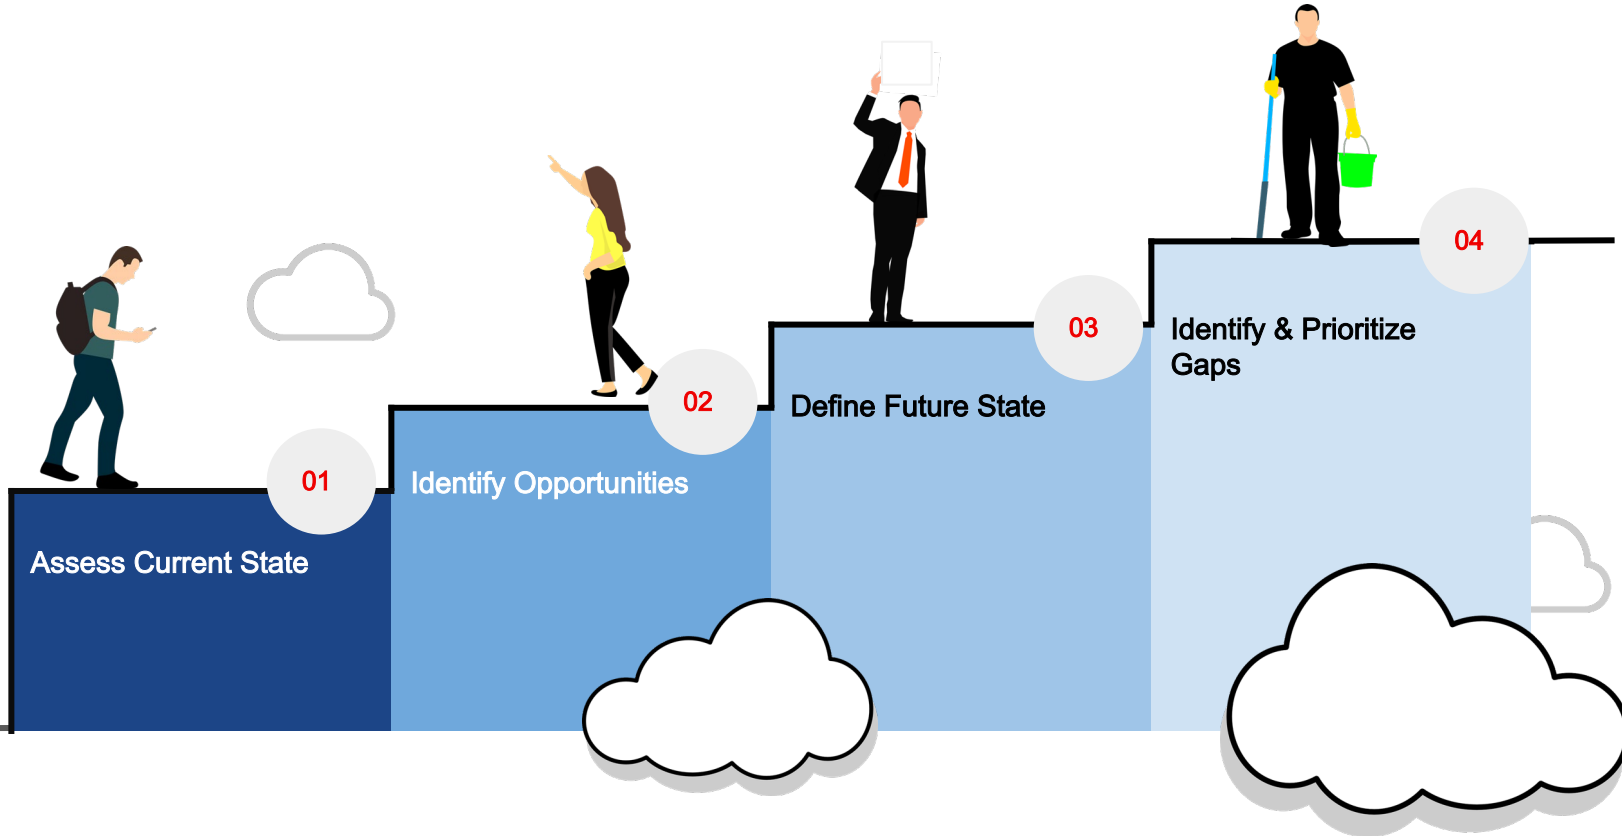

...But How?

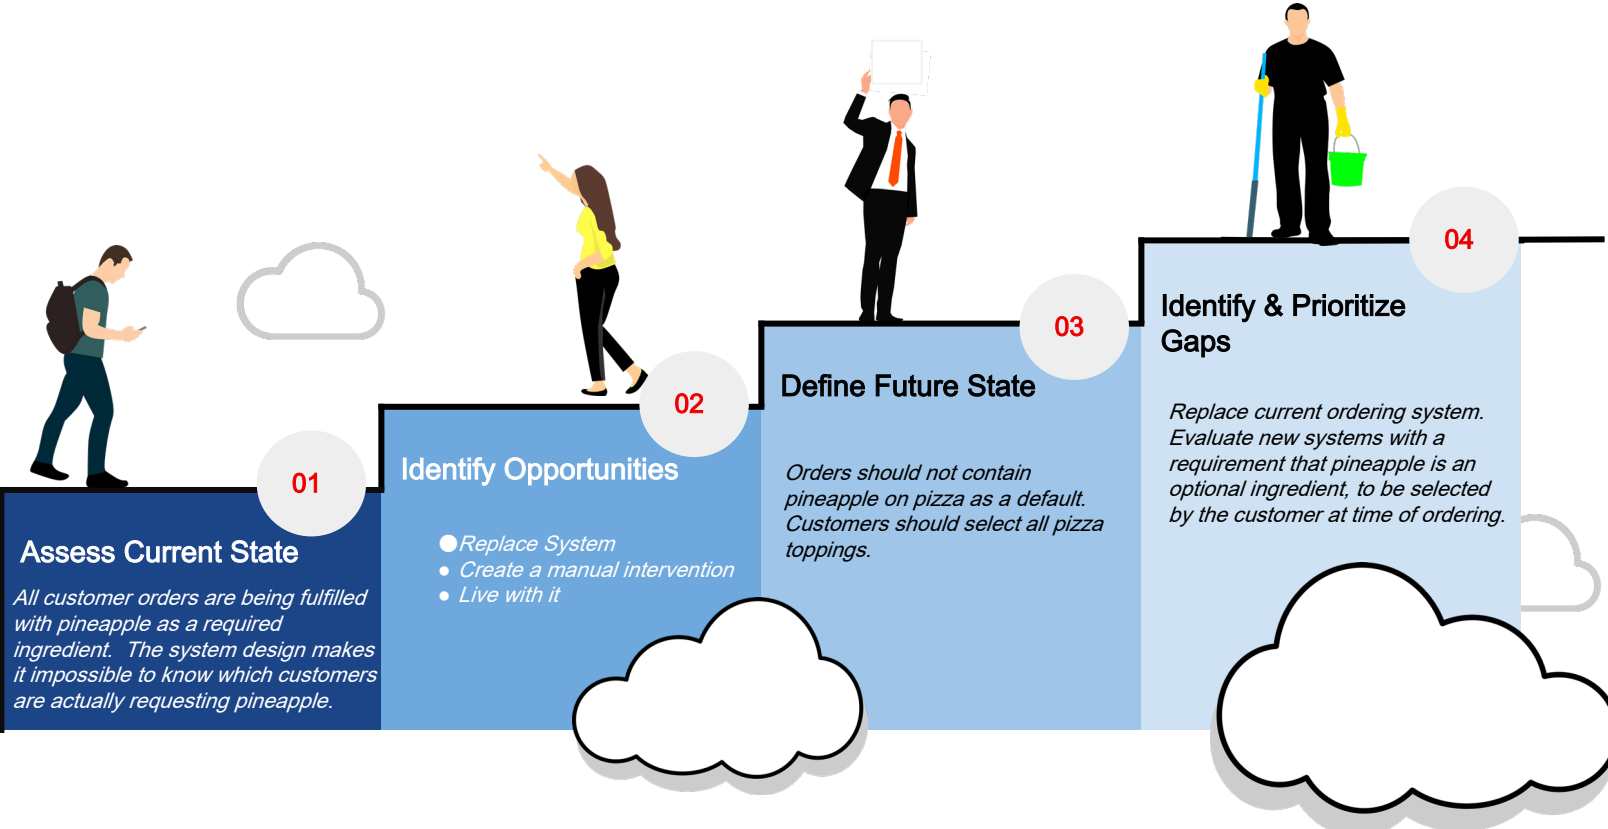

Ideation to Realization: Moving ideas into the realization of business benefit

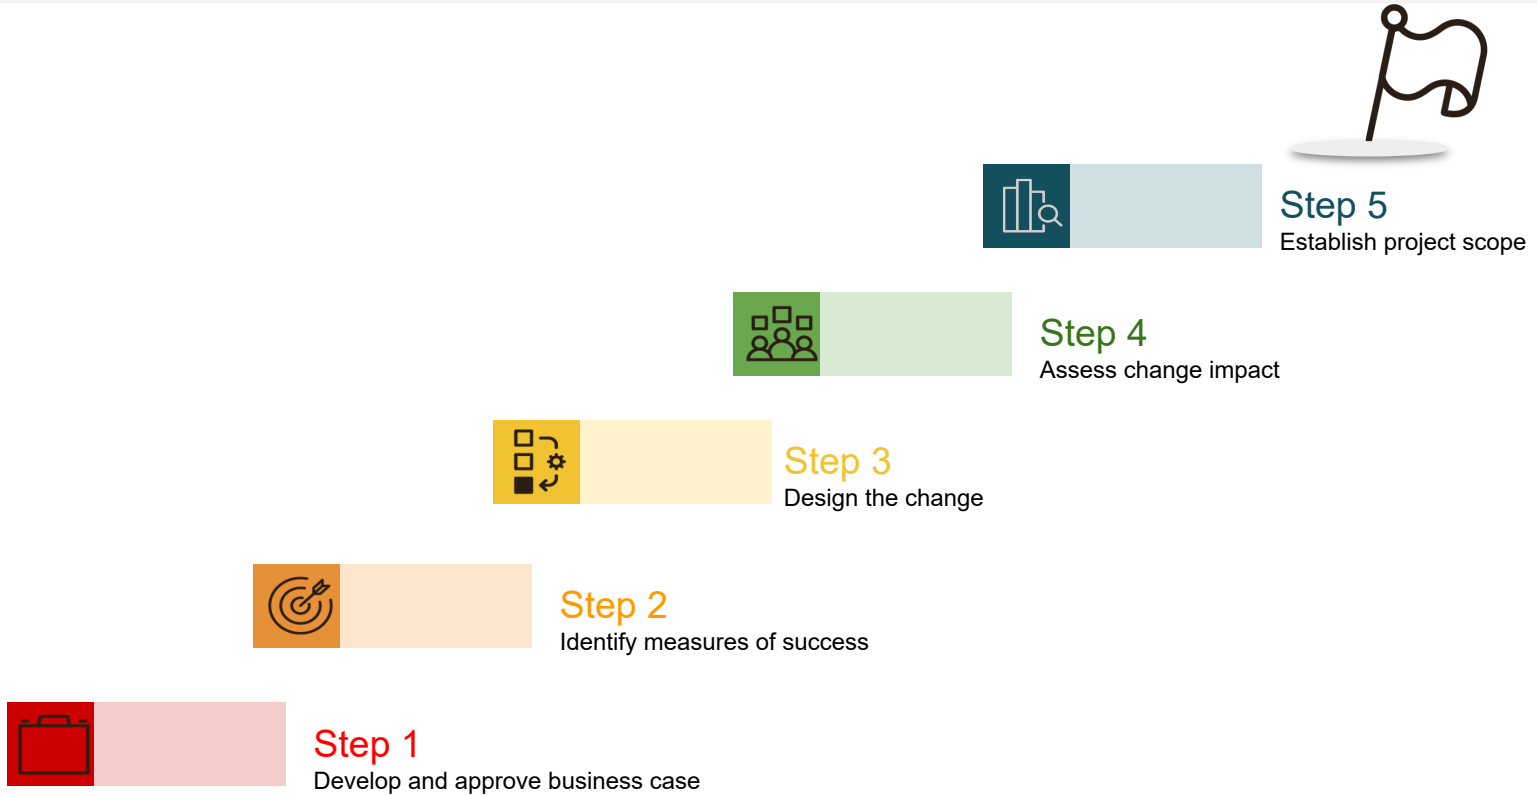

Step 1: Identifying Change

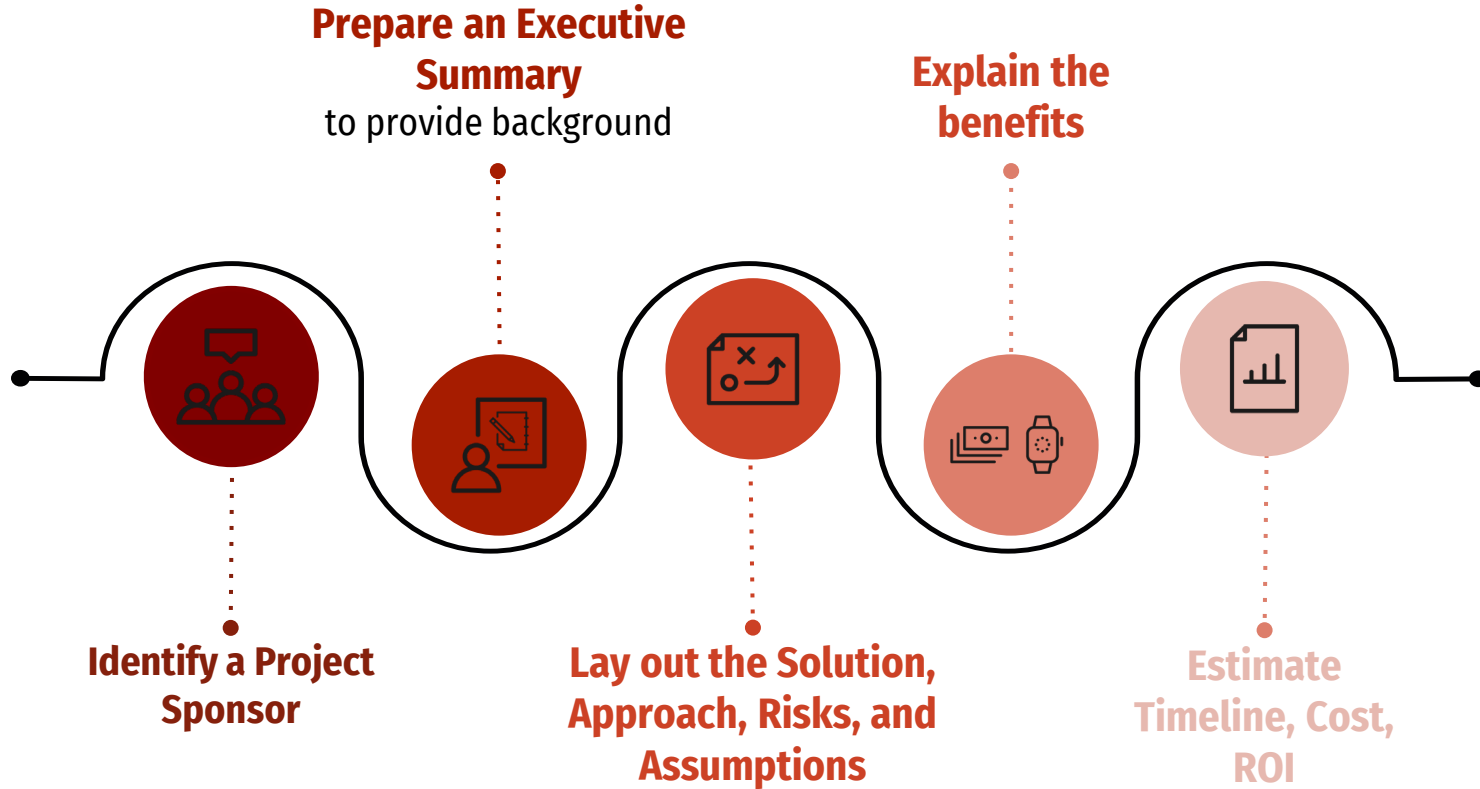

Identifying Change: Pizza Empire

Step 2: Defining Change

Creating a Business Case: What's Important

A3 Template

Project Name	Project Sponsor	Core Team Members	Target Start Date	Estimated Completion Date
Business Challenge <i>(Problem Description)</i>	Current-State Assessment		Improvement Goal(s)	
<i>What is the business reason that makes this issue an important one?</i>	<i>What is the symptom or pain point that the business feels, that requires action?</i>		<i>What is the change we need to make now, and how will we measure success? What are the expected benefits?</i>	
Root Cause Analysis	Proposed Countermeasures <i>(Improvements)</i>		Implementation Plan	
<i>Why are we experiencing the pain point?</i>	<i>What does the future-state look like, and how do we get there? Show that the improvements will address the root cause.</i>		<i>Actions or outcomes, with a timeline and owners.</i>	
Monitoring Plan				
<i>How will you check results to confirm the root cause has been addressed? What followup actions will need to be taken, and by whom?</i>				

Pizza Empire: Order System Transformation A3

CONFIDENTIAL

Project Name	Project Sponsor	Core Team Members	Target Start Date	Estimated Completion Date
Order System Replacement	You	Diallo F, Mark S, Trina W, Jiang Y	15-JAN-2023	30-OCT-2023

Business Challenge <i>(Problem Description)</i>	Current-State Assessment	Improvement Goal(s)
<p><i>What is the business reason that makes this issue an important one?</i></p> <p>Happy customers are repeat customers. Pizza Empire relies on customer satisfaction to sustain revenue growth and gross profit margin expansion. A recent drop in customer satisfaction, revenue, and GPM% is driven by orders being fulfilled incorrectly.</p>	<p><i>What is the symptom or pain point that the business feels, that requires action?</i></p> <p>Currently, all customer orders are being fulfilled with pineapple as a required ingredient. The system has been designed to make it impossible to know which customers are actually requesting pineapple.</p>	<p><i>What is the change we need to make now, and how will we measure success? What are the expected benefits?</i></p> <p>This transformation project will replace our current ordering system. New systems will be evaluated with a requirement that pineapple is an optional ingredient, to be selected by the customer at time of ordering.</p>
Root Cause Analysis	Proposed Countermeasures <i>(Improvements)</i>	Implementation Plan
<p><i>Why are we experiencing the pain point?</i></p> <p>The default settings on our current ordering system are set to “always use pineapple.” Big Pineapple, the current software vendor, has provided no way to turn off this default setting. Without transformation, all orders input through this system will continue to include pineapple, regardless of whether the customer requested it or not.</p>	<p><i>What does the future-state look like, and how do we get there? Show that the improvements will address the root cause.</i></p> <p>Replacing our current ordering system with one not managed by Big Pineapple ensures that customer pizza requirements will not be systematically altered.</p>	<p><i>Actions or outcomes, with a timeline and owners.</i></p> <ul style="list-style-type: none"> ● Plan & Kickoff Project 30-JAN ● High-Level Requirements 28-FEB ● Vendor Evaluation & Selection 15-MAR ● RFP & Contracts 15-APR ● Detailed Requirements & Design 01-MAY ● Testing & Acceptance 01-JUN ● Change & Enablement 15-JUN ● Go-Live 15-JUN ● Transition to Business/Monitoring 30-OCT

Monitoring Plan

How will you check results to confirm the root cause has been addressed? What followup actions will need to be taken, and by whom?

Weekly monitoring of Customer Satisfaction, Revenue and GPM% to ensure improvement in success measures. Diallo will also capture and share lessons learned & formulate best practices.

Calculating Return on Investment

Estimate Timeline,
Cost, ROI

$$= \frac{\text{Current Value of Investment} - \text{Cost of Investment}}{\text{Cost of Investment}}$$

Negative ROI indicates a financial loss

Positive ROI indicates a financial gain

Definitions

Return on Investment

Measured as a percentage, this business metric communicates the financial return expected based on the investment. A **negative ROI** indicates a financial loss; **positive ROI** indicates a financial gain.

Current Value of Investment

Expected financial gain from executing the change.
For example: increased revenue, acquisition of new customers

Cost of Investment

Captures all costs to plan and implement the project.
For example: internal staff, vendor costs, software licensing, cost of production downtime (if applicable)

Pizza Empire's Transformation ROI

Estimate Timeline,
Cost, ROI

ROI Calculation: Pizza Empire Order System Transformation

Current Value of Investment

	Pizzas	Days	Price	Total
Restore current customers/revenue	50	313	\$20	\$313,000
Acquire new customers based on reputation (5% growth)	\$2	313	\$20	<u>\$12,520</u>
Total Current Value of Investment				\$325,520

Cost of Investment

	Total
Internal Staff - 1 FTE for 10 months	\$75,000
New Software vendor cost + Implementation Partner fees	\$200,000
Training Shut-down: Pay 10 Employees to come in on day closed	<u>\$1,200</u>
Total Cost of Investment	\$276,200

ROI \$	\$49,320
ROI %	17.9%

Loss

Step 3: Executing Change: Best Practices

Acquire buy -in for project resourcing, timelines, cost

Assume resistance to change; provide support and eliminate obstacles

Communicate the vision along with the change

Get people excited about the change; reward adopters

Plan and manage tasks with a project schedule

Pizza Empire Celebrates Their Wins!

Step 4: Implementing Change: Best Practices

**Build effective
sponsorship** at
all levels

**Ensure
realization
mindset**

**Proactively
identify and
manage project
risks**

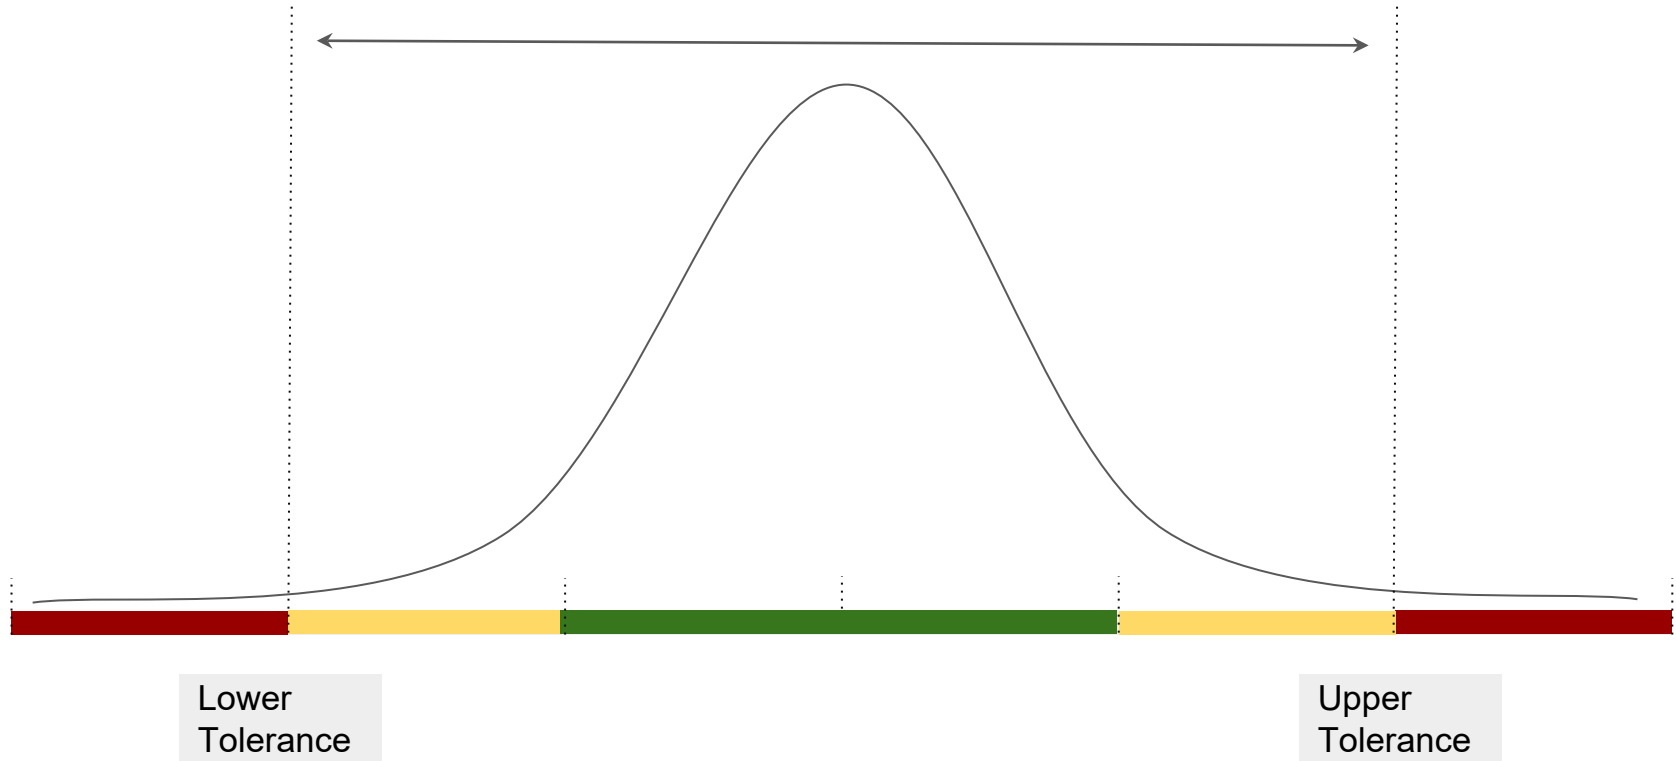

**Prepare
environment** for
disruptive change

Step 5: Realizing Benefits & Monitoring

Change doesn't end at Go -Live.

We need to monitor our success measures and ensure benefits are realized.

Monitoring to ensure benefits realization

The Case for Change

Transformation Best Practices

What increases the probability of transformation success?

Foster an environment that encourages everyone - regardless of role or position - to **propose innovative ideas**

Establish a **common language** for driving and managing change

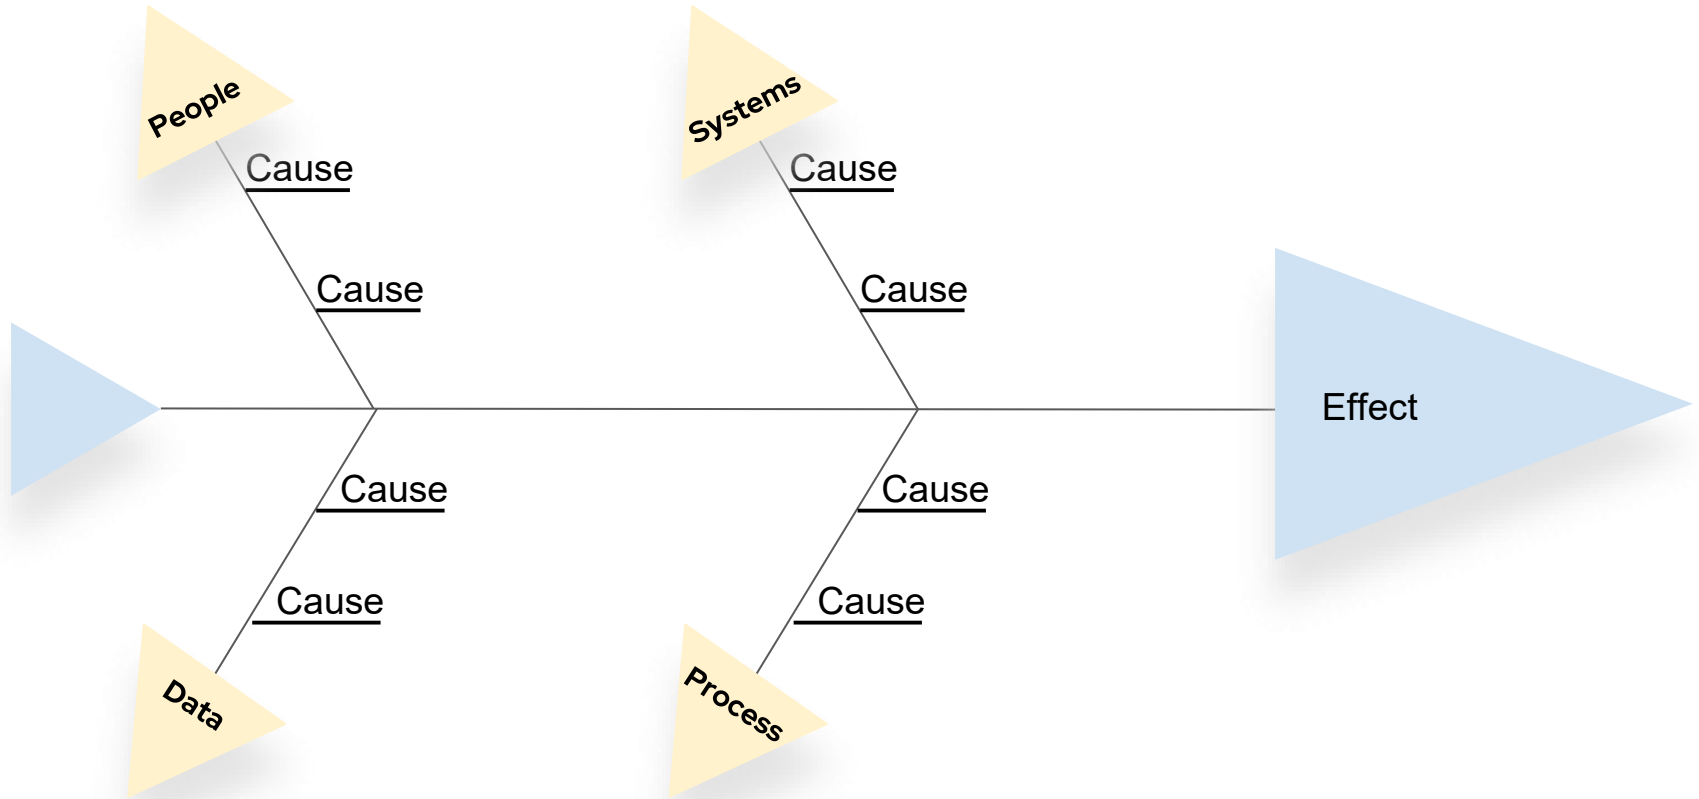

Utilize a **business case** and **evaluate ROI** to vet transformation efforts

Ensure solutions will **address the root cause** of the business problem
